I really can't explain it
The way you make me feel
Try hard to contain it
But I cannot conceal
The things you do to me

I'm crystal clear
You see right through me
I'm crystal clear

I dream about your voice at night
I dwell upon your smile
I replay all the things you say
You words can go for miles

Oh you're confusing
I'm crystal clear
All blood and bruising
I'm crystal clear

When I get you all alone
I go to pieces

I'm crystal clear

I'll walk to any place you go
Search you high and low
I know this one can't get away
And it's always so

These things you do to me
I'm crystal clear
You see right through me
I'm crystal clear

When I try you on the phone
I go to pieces
And when I want you all alone
I go to pieces

I'm crystal clear

When I spy you on the phone
I go to pieces
And when I want you all alone
I go to pieces

I'm crystal clear
