I don't want you to touch me don't try to help you'll only
make it worse
Don't tell me it will be okay nothings gonna be okay
anyway it doesnt'tt matter im gonna turn my tv on
Cause everything looks beautiful on video
No point in talking now im gone i have escaped i can't
go ? my eyes don't see the world at all my ears don't
hear the things you say i want to turn to light i know that
is where i belong electrify the airways off on video and
if you need me switch me on im always right behind
the screen im beutiful forever now im living 30 minute
dreams and if you want me switch me im living right
beyond the screen the only place i feel at home i am
your 30 minute dreams
Oh you could never touch me don't even hold me lonely
one too much
I know that you can look away i know that i can keep in
touch and when you dim the light you know i wont be
gone for long i will live forever here on video
Electrify the airways up on video your so cruel to ever
look away and if you need me swtich me on im always
right behind the screen im beautiful forever now im
living 30 minute dream
And if you want me switch me on im living right beyond
the screen the only place i feel at home i am your 30
minute dream
Somebody who will love me here on video i will live
forever here on video everything looks beautiful on
video
Your so cruel to make me look away your so cruel to
make me look away
