Do you still keep my pictures in your frame?
Cause I still shut down with the sound of your name.
Do you still wanna talk to me like you used to?
Cause I could understand if you don't
I Wont... Call unless you call me first

Do you still keep my letters in your drawer
Cause I still have yours but I don't read them anymore
Do you still wanna kiss me like you used to
Cause I could understand if you don't

Do you still hold me close to your heart
Cause I still need you even though we are apart
Do you still wanna hole me like you used to?

I could understand if you don't
