She's imperfect running down the sides
She must be your favorite place to hide
I get so torn up inside
Top down-DEVO-two hour ride

I hope she doesn't get too angry
Everything I think is not cool
What if I said I was unhappy

Wind in my hair getting so annoyed
75-HOW DO YOU AVOID?
Reading cartoon books about Freud
If I said a thing we'd all be destroyed

So I try to act natural
But I look so nervous
You really get my stomach turning

If I said, "I'm fine,"
I would be the biggest liar that you have ever seen.

Writing songs about fish and chips
When you're Squeeze you can do anything
