Looking back at the words you said
Taking back all the words i said you
Act like you aren't new to this
And talk like you're a pro at this
It's so good to see you on your feet again
You act like you're aren't new to this
And you talk like you're a pro at this
Take a look around the city is lit tonight
It's lit it's lit tonight
One more chance to be yourself to prove yourself
again
Tonight to be the one you knew you were
To show yourself you really were
