Scream my name...  
Offer your soul...  
Share your pain...  
Accept my call...

I will come again in your dreams  
I'm here to uphold you when contemned  
The terminus is I  
Don't fight it...

Despair

Scream and despond let your echoes resound in the  
darkness  
Now you are mine, taught by the chains of despair  
Look back at your life, a trail of lost hopes, desolation  
Linger beyond the bright light, but no one will care...

I roam to infinity, imprison your will  
Silence empowers the solitude  
I exist to destroy, the thrill of the kill  
The screams and the cries of the weak

Share your darkest desires and dreams  
Flesh holds the key to immortality  
The screams of the weak now are feeding my hate  
I'm laughing more with each cry...

Let the embrace of death  
Release me from this lie  
Let the autumn wither  
The rest of nature's gifts

Colors fade away  
Nothing comes from nothing  
Lament the loss of hope  
And wonder if you'll dream...

I'm the chains of Despair...

The cold embrace of death  
Now takes the pain away

The mirror was the one  
To say my last goodbye

Relinquished the gift you call life  
Bewailing the years, I still wonder why I tried  
The falsehood, the pain and the lies  
I was the one to witness my own demise...
