

## The Eternal Suffering

### "End Script"

Visit "[End Script](#)" on MotoLyrics.com

The things you've been through mean nothing to anyone  
The days you've been through mean nothing to anyone  
You've done so much in this little time youve had  
I only know your name from reading it but i do wish i  
could have met you  
And maybe i have but i can't picture you  
And another day passes just another day  
And it's so easy to forget what you lived for  
You grew so much in the little space you've had  
The days you've been through mean nothing to anyone  
The things you've been through mean nothing to anyone
