"Made To Love"

My father looked at me one day & said "Son, it's plain
to see
That you're getting older & should have a talk with me
You'll soon be going on lots of dates as to a man you
grow
& there's one important thing every boy should know:
Girls, girls, girls were made to love
Girls, girls, girls were made to love
That's why some have eyes of blue
That's why some stand 5 feet 2
Girls, girls, girls were made to love"

"One day soon you'll have a date & take her home at
night
You'll wonder as you look at her, would a kiss be right?
The more you look, the more you'll find those doubts
will fill your head
But think real hard & you might recall the things your
old dad said:
Girls, girls, girls were made to love
Girls, girls, girls were made to love
That's why you watch 'em walk down the street
That's why the kisses taste awfully sweet
Girls, girls, girls were made to love"

(repeat & fade):
Love, love
