Seduced by her beauty  
Enchanting winter night  
Like a disease she's spreading  
Unholy sick delight  
The mistress is now screaming  
Her laughter brings the night  
The seeds of famine blossom  
Carrion worms grow inside  
Her black wings hide the light  
Oh hear me mournful night  
Give birth to unholy light  
The world that she now loathes  
Swarmed by devouring flies  
Prey to a forsaken breed  
Her desires to feed  
The night now reeks of vengeance  
Purge this land with might  
Her absolute reprisal  
Nocturnal Delight  
She was sworn in the Darkness  
They worshipped the light  
An unrighteous fury was raging  
They could not fathom  
They could not see  
Her dying breath was merely an awakening  
They cried for Blood  
Blood they'll receive  
Burnt flesh, the scent of death is all they ever believed  
Now burn to ashes  
"Let there be pain"  
Her black wings hide the light  
Oh hear me mournful night  
Her armies rule the night  
The world that she now loathes  
Swarmed by devouring flies  
Prey to a forsaken breed  
Her desires to feed  
The night now reeks of vengeance  
Purge this land with might  
Her absolute reprisal  
Her Nocturnal Delight
