Not me, no, not me  
Not me, no, not me

You can't have me  
Because you don't please me  
The way you act, child  
Could out-run any man wild

Not me, no, not me at all  
Not me, no, not me

You got to get down, down, down  
Down on your knees and pray  
You got to get down, down, down  
Down on your knees and change

Not me, no, not me at all  
Not me, no, not me

You can't have me  
Because you don't please me  
The way you act, child  
Could out-run any man wild

Not me, no, not me at all  
No, not me

You got to get down, down, down  
We got to get  
Down, down down  
Down, down down  
Down, down down
