Went out round 7 stopped at somebody's  
It's all downhill from here  
We stood at shelter two and listened to the trees  
Its all downhill from here  
Went to Arlington Hardware to buy some eletrical tape  
Its all downhill from here  
You went to Tulsa and I'm gone away  
Its all downhill from here  
Its all downhill from here  
Its all downhill from here  
We keep on climbing but we never find the top  
We keep on climbing but we never find the top  
We keep on climbing but we never find the top  
It all downhill from here
