They don't want you to understand
They don't want you to understand
Sit back, relax, let go
You won't feel a thing
Formulation with no end
A bunch to comprehend
Count down from ninety nine...
Ten words certain are vague calling for a plague
Count down from ninety nine...
They'll beat you with the truth so you won't feel the lies
They'll beat you with the truth so you don't feel the lies
Sit back, relax, let go
You won't feel a thing
You won't feel a thing
They'll tell you everything but they won't tell you
anything let go
They'll tell you everything but they won't tell you
anything let go
They'll tell you everything but they won't tell you
anything let go
They'll tell you everything but they won't tell you
anything let go
You won't feel a
You won't feel a
You won't feel a
You won't feel a
You won't feel a thing
You won't feel a thing
Until the day you wake up
Until the day you wake up
Until the day you wake up
Until the day you wake up
Until the day you wake up...
