(Verse One)

I know there's a first time for everything  
First time I let her in my bed she got wetter then the  
perfect storm  
That we weathering together and  
This the first time that I've ever considered wedding  
rings  
But first things first yo  
I met her at the bar rolling with three wise men like I  
followed the star  
There she is shorty bi coastal  
Thick like bifocals, stacked like 2Pac vocals her body so  
loco  
Jewel of the Nile so I'm romancing the stone  
The rhythm is to the words and I watched her dance to  
my poems  
The way she move them hips let me know in advance  
that she grown  
I pictured it like Paris Hilton when she answered the  
phone, yo  
Dancing alone because she extra fly  
But I got good look so I catch her eye  
Gave the rest a try now give the best a try  
Leave your nest and I'll fly make you testify  
Damn baby I know we got some haters and.

(Hook)

I don't care what people say  
As long as you and me okay  
Because I never been in love before  
See I use to be a player and  
All of this is new to me  
And this ain't what I'm used to see  
Because I never been in love before

(Verse 2)

You running back to the kid like this was home base  
Or a marathon I let you set your own pace  
Your own space and the beautiful struggle  
Now baby tell what's it gonna take to prove that I love  
you

When I'm gone you be missing me too  
It let me know that my prayers is the music God be  
listening to  
Don't get it confused I'm trying to get religious with you  
I never thought I feel like this its like a miracle you  
You You stole my heart like a crook in love  
Crossing the bridge to the Brooklyn love  
When I took above it's clear skies that's surrounding  
my earth  
Your love is drugs and I'm down to serve let's deal with  
it yo  
We go to the spot and you still get it low  
I get excited fast and still love to hit it slow  
till the walls come tumbling down like Jericho  
And you hear the sound is stereo  
Hear we go

(Hook)

I don't care what people say  
As long as you and me okay  
Because I never been in love before  
See I use to be a player and  
All of this is new to me  
And this ain't what I'm used to see  
Because I never been in love before

(Verse Three)

You looked good when I tried you on  
So I had to write a song  
Use to be the guy that always made her cry when I'm  
gone  
Always kept a stable and I never spent a night alone  
no cable or no hard line phone why  
I'm never home scared of commitment  
Ready to forever roam  
We at war like sister souljah and she welcome to my  
terror dome  
Head strong our connection proved them haters dead  
wrong  
From now to R.I.P. Proceeds my name up on the  
headstone  
Leave her be for five minutes  
Dudes try to dive in it first  
They want to spit on my name and tarnish my image  
I tell them do you I don't care who she speaking with  
Because I already know she made it clear who she  
leaving with  
And it feels so beautiful  
Put it in a rhyme because it feel so musical  
Plus you ain't no groupie hoe  
Sitting in the studio

Before we do this though there something that you  
should know

(Hook)

I don't care what people say  
As long as you and me okay  
Because I never been in love before  
See I use to be a player and  
All of this is new to me  
And this ain't what I'm used to see  
Because I never been in love before
