

The Explicits "Desolate"

Visit "[Desolate](#)" on MotoLyrics.com

What the hell are you doing here?
Empty conversations with a cadillac sneer
Nobody gets lost they just disappear
Things left unsaid until you come near

Seeing you makes me weak in the knees
Seeking to give you everything you need

Look at this town and it's udder defeat
Staring back at these empty streets
Nobody gets lost they just disappear
Things left unsaid until you come near

Seeing you makes me weak in the knees
Seeking to give you everything you need

Seeing you makes me weak in the knees
Seeking to give you everything you need

Everything you want
Everything you need
Everything that you want
Everything you need
Everything that you want
Everything you need
Everything
