Well, girl now you sat down, we're through,
Little do you know that's only half the truth.
Outside your house tonight I'm waiting,
Whoa.

I watch your every girl move girl,
You don't know,
I'm your shadow

And now the children are asleep,
Should've listened to your momma,
She always said I was a creep.
You're home alone your phone is ringing,
Whoa.

I watch your every move girl,
You don't know,
I'm your shadow.

I watch your every move girl,
You don't know,
I'm your shadow.

Your shadow [x2]
