I wanna see you stand tall  
So I can smash you down  
Give you a taste of the world you thought  
Existed in dreams.

Prove your waste of existence  
Can only last as long as your name.  
I didn't wanna have to say this  
I didn't want to make it public  
Nothing to give  
Nothing to offer nothing to live for  
I'm so sick and so tired of people like you

I didn't wanna have to say

Scream at the top of your fucking lungs  
Remember my name  
Is that what you believe is that what you believe  
Life won't wait and neither will I  
Is that what you believe  
Remember my name!

Prove your waste of existence  
Can only last as long as your name.  
I didn't wanna have to say this  
I didn't want to make it public  
Nothing to give  
Nothing to offer  
I'm so sick and so tired of people like you

Further along the line  
You can't escape the will of lies  
The will of hate combined with love  
Will destroy your life  
Nothing to give  
Nothing to offer  
I'm so sick and so tired of people like you  
I can't sit back and listen to the shit  
That you are calling words  
Remember my name
