Ay, Ay, Oh

I remember that summer it was yesterday, time stood still, friends were family
My life was so damn easy (Ay Ay, Oh)
Autumn then approached and we said goodbye, still taste the tears that you started to cry
I'd trade it all to turn back the time (Ay Ay, Oh)

Someone once told me girls come and they go, you were different
No time to take it steady and slow
I fell for you when you said
I need you

CHORUS:

When I see you smile, it knocks me off my feet, you are so beautiful to me (Ay Ay, Oh)
When I see your face, my heart beat starts to race, you are just everything to me (Ay Ay, Oh)

High tops, flip flops
Lemonade, in the shade (you're that much more to me)
Blue Skies, high tides
Late night, water fights, (you're that much more to me)
Caught in the moment, can't control it, babe you are just that much more to me

You were my cloud 9, and time flew by, to this night you're still the only star in my sky
Shining on me all the time (Ay Ay, Oh)
Looking down at the water finding ways to stall
Holding hands on the edge, we were scared to fall, but I fell for you when you said
I need you

CHORUS:

When I see you smile, it knocks me off my feet, you are so beautiful to me (Ay Ay, Oh)
When I see your face, my heart beat starts to race, you are just everything to me (Ay Ay, Oh)

High tops, flip flops
Lemonade, in the shade, (you're that much more to me)
Blue Skies, high tides
Late night, water fights, (you're That much more to me)
Caught in the moment, can't control it, babe you are just that much more to me

Livin' in the clouds and Ill never come back down
Got me goin' crazy and my head is spinning round
We broke the rules, we stood apart, ignored our head, followed our heart
I fell as soon as soon as you said

When I see you smile, it knocks me off my feet, you are so beautiful to me

CHORUS:

When I see you smile, it knocks me off my feet, you are so beautiful to me (Ay Ay, Oh)
When I see your face, my heart beat starts to race, you are just everything to me (Ay Ay, Oh)

High tops, flip flops
Lemonade, in the shade,
Blue Skies, high tides
Late night, water fights, (you're that much more to me)

Ice creams, sweet dreams
Bathing suits, shooting hoops
Party time, schools out
Sleeping in, sneaking out, you're that much more to me

Caught in the moment, can't control it, babe you are just that much more to me
