Can you stand like a man?
Face the war and earn it
Blood for blood you heard it
This is what you're made of

Broken will, broken dreams
Grease the gears of the modern machine

Live... Bold...

The legend of man in flesh and blood
Built for war, cut from the stone
You want to walk the ground and claim it
Get in the trenches, you can't fake this

You want it? Come take it!

Talk the talk because talk is cheap
Bark with no bite, a dog with no teeth

Do what you say not what you wish
A coward's mouth met with a fist
Jaw of glass will be shattered
