And if I'm stranded here without you near
Then I won't make it
But these city lights, they look so bright
You'd think they'd let it
But I'm saying bye to this town
And I don't want to lose you tonight

Let's go together

New York City calls our name
You think I'm crazy
But these avenues and boulevards
Are never the same
So lets stand here side by side
And sing along with these city lights

When the city meets the ocean
You found what you're looking for
