Visit "[Like Knives](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Go get your guns and your switchblade knives  
And cut it up  
Kill the ones who speak if they speak of us  
Cause they'll never really tame us

Go get your guns and your switchblade knives  
And cut it up  
And kill the ones who speak if they speak of us  
Cause they'll never really tame us

You're so outta control  
You're so outta control, you gotta  
Be more in control, you gotta  
Be more in control

You're so outta control  
You're so outta control  
Be more in control  
Be more in control

Go get your guns and your switchblade knives  
And cut it up  
And watch the flash of the blade as it grinds right  
through our bones  
Without a sound

So cut it like a DJ  
Cut it while it's hot  
And cut it while you still remember  
How all the DJ's cut  
How all the DJ's cut  
Cut me a slice of your track now

You're so outta control  
You're so outta control, you gotta  
Be more in control, you gotta  
Be more in control

You're so outta control  
You're so outta control  
Be more in control  
Be more in control

You're so outta control  
You're so outta control, you gotta  
Be more in control, you gotta

Be more in control

You're so outta control  
You're so outta control  
Be more in control  
Be more in control

Go get your guns and your switchblade knives  
And cut it up  
Kill the ones who speak if they speak of us  
Cause they'll never really tame us

Go get your guns and your switchblade knives  
And cut it up  
And kill the ones who speak if they speak of us  
Cause they'll never really tame us

Go get your guns and your switchblade knives  
And cut it up  
And kill the ones who speak if they speak of us  
Cause they'll never really tame us

You're so outta control  
You're so outta control, you gotta  
Be more in control, you gotta  
Be more in control

You're so outta control  
You're so outta control  
Be more in control  
Be more in control

You're so outta control  
You're so outta control, you gotta  
Be more in control, you gotta  
Be more in control

You're so outta control  
You're so outta control  
Be more in control  
Be more in control
