Big Tymah

Among the thieves, there is no honor, Until you step up
fi set up the rules and order
Mek the worst a dem know, Decency come before the
chase fi di dollar

Who can you blame if no one explains the way that the
game is played?
Thousand years ago, Things were just the same

You'd praise the way that I run this city
Still whole heap a dem iniquity workers, They™ re
living the life of the victim so me forgive dem

I -Mon have the idea that Dem skin dem teeth but
behind your back
Dem full of chat, But never know seh I hear that.
More Riddim, Give dem heart attack

CHORUS

The gangsta dem wan hold the name of the
BIG TIMER
But most of them can™ t play the game of the
BIG TIMER

Who run the town?
Enterprise ~pon de rise to another class
Anytime money make tribute to the boss

We put this thing together so that we people dem
coulda live so large

Shake down is suicide, Talk to the one in charge

I™ d rather we find solution, Nuff fighting when outta
road
This business wid dem confusion, Get outta the youth
control
Those other bosses with trigger fingers go down in
shame
I-Mon looking forward to living life with no ball and

chain

Now in this world of entertainment
Some man dem fi talk bout how dem fi get dem
payment

It's like dem forget how Officer John Brown come with
the mad surveillance,
and decode the song

Dem think seh dem Don?
But what dem informer put down â€˜pon riddim give
them reason fi turn up missing
(now listen)

CHORUS

The money flow operate from the word of the
BIG TIMER
Dem man a pose and dem claim dem deserve to be
BIG TIMER
First consideration: The needs of the people dem,
before you call yourself taking all of the cash out of the
game. For real. Original Bad Man will mek dem know
what a gwaan. Spread The Word
