Call The Specialist

CHORUS

So many gal a call and say dem man drop out too soon
Before the night is done me have dem in my hotel
room

Dem A Call The Specialist - Gal a send photograph dem
across the internet

Dem A Call The Specialist - Spilling out all the secrets
she wan mi get it wet

How the games dem go betwen boys and girls, like a
cat and mouse me don't play this
Zulu nickname come from the times when me work gal,
true bad man for all ages
You must be out of your mind if you believe that just
because you buy the ring last Christmas
The gal dem won't stray the SAME DAY that you don't
satisfy dem and you don't get dismissed
You know the business

CHORUS

Dem A Call The Specialist - Any bwoy inna a range of
the vibes I'm sending thru

Dem A Call The Specialist - Give the gal whe dem need,
otherwise that could be you

Certain man no really business how the gal dem
thinking
Dem deh youth dem have a problem with independent
women
Long done before the woman a commence the
screaming
Now dem check the ragamuffin specialist this evening

Let me put this in your ear so that you never feel it
Satisfy the woman when a you dem wan fi deal with
If de woman a sit down inna me bed this evening
Guaranteed she'll climb the wall and hanging off the
ceiling
Gal a wear the mini skirt just creeping up, then she tell
me seh the man don't give enough

Zulu music change the mood and heat it up. take your
girl deh back a yard man beat (the p) it up
Otherwise another man might notice how the gal deh
out a road and a dress so serious
When you get another chance don't blow this man run
the route until she talking delirious

CHORUS

Dem A Call The Specialist - Zulu man inna de bed gal
know seh me work it well
Dem A Call The Specialist - Much more could be said,
but me don't wan kiss and tell

How long have you heard the name "Bad Man ZULU"
(bird) remix king me control this
Me kill riddim you notice, the heavy rotation, there's
plenty more where that came from
I know you're feeling the stress, because the woman
dem a call fi de specialist, she want get satisfy
Me see you asking the question, whenever she run out
pon you bwoy, aint no need to wonder why

Gal a wear the mini skirt just creeping up, then she tell
me seh the man don't give enough
Zulu music change the mood and heat it up. take your
girl deh back a yard man beat (the p) it up
Otherwise another man might notice how the gal deh
out a road and a dress so serious
When you get another chance don't blow this man run
the route until she talking delirious
