Running away from them
I stumbled into you
I wasn't looking for it somehow it just fell into my life
The thought of mountain sky brings a new tear too
I drive in the streets singing this is not my home,
Just a place I live

Where you are
Well it never quite feels like home
But they say that home is where the heartache is
And my hearts with you

Breathing the city air
Reminds me why I care
On every drive, every ride
You know you're always on my mind

Where you are
Well it never quite feels like home
But they say that home is where the heartache is
And my hearts with you

Ooh ooh ooh ooh ooh ooh ooh ooh
Ooh ooh ooh ooh ooh ooh ooh ooh
Ooh ooh ooh ooh ooh ooh ooh ooh ooh ooh

Where you are
Well it never quite feels like home
But they say that home is where the heartache is
And my hearts with you
And my hearts with you
And my hearts with you
