You seem so nervous and so natural to me  
As a major operator you know what say  
You suck me in then spit me out I dont wanna play  
You made a promise broke it on the same day

When you told me what you wanted and I wanted you  
You said you needed help and I wanted to  
But I couldnt take this broken anniversary  
I made the same mistake on the very same day

It was a good day and a bad day  
It was good friday then the weekend  
And if its anything worth saying  
Its bring on the weekend

Its a broken hearted ancient gentle memory  
I remember perfect moments and I wish theyd stay  
You cast aside a vision, yeah, to let me know  
You dreamed and dream and then you had to let it go

When you told me what you wanted and I wanted you  
You said you needed help and I wanted to  
But I couldnt take this broken anniversary  
I made the same mistake on the very same day

It was a good day then a bad day  
It was good friday then the weekend  
And if its anything worth saying  
Its bring on the weekend

It was a good day and a bad day  
It was good friday then the weekendx2  
Bring on the weekendx2

You told me what you wanted and I wanted you  
And said you needed help and I wanted to  
But I couldnt take this broken anniversary  
I made the same mistake on the very same day
