Everyone knows it,  
Can you deny it?  
I was the only one for you  
Everyone knows it  
'cause we couldn't hide it  
Nobody else got close it's true  
My love was stronger than you think,  
So much stronger and now I've had a dream.  
I hope you know that I miss you  
And I wonder where you've been,  
And I wonder who you've seen,  
And I hope that he's a friend.

Do I miss you? Yeah  
Do I miss you? Yeah  
Well I wonder where you've been  
And I hope you're with a friend.

Everyone knows it  
So don't you deny it;  
We had it all layed out for two.  
Everyone knows it  
'cause we couldn't hide it;  
I was the sea and the sky as you.

All of a sudden,  
The wind just change direction,  
And that big black cloud came rolling in.

I hope you know that I miss you  
And I wonder where you've been,  
And I wonder who you've seen,  
And I hope that he's a friend.  
Do I miss you? Yeah  
Do I miss you? Yeah (yes I do)  
I wonder who you've seen  
And I hope that he's a friend..

Nah nah nah, etc.
