Well she said jealousy is something that distracts you  
I said it's hard to focus with your fingers in his belt  
loops  
Then there was that dream about you naked in the  
bathroom  
Telephone just rang, I heard you say I'll call you back  
soon

He's been waiting in the alley for an hour  
She's been powdering her nose in the shower  
I've been trying to figure out where it went sour  
But I think the ringing in my ears is getting louder

Hold out your hand, and take it easy  
I already know what's been going on  
I knew it all along  
So just, take it easy  
You're acting surprised and I just rolled my eyes  
It's gonna be alright  
Alright

She's like the devil in a dark shade of lipstick  
An unassuming sort of x-rated misfit  
Her bottle's shook up all you gotta do is twist it  
Before you get a chance you'll already have missed it  
He's got his arms around her looking like an actress  
A chain to drive he'd been posing like a baptist  
Subtle proposition, will you fit him in your tracklist  
Maybe you'll just get right down to wearing out the  
mattress

Take what you can  
And, take it easy  
I already know what's been going on  
I knew it all along  
So just, take it easy  
You're acting all surprised and I just rolled my eyes  
It's gonna be alright  
Alright

Take it easy  
I already know what's been going on

I knew it all along  
So just, take it easy  
You're acting all surprised and I just rolled my eyes  
It's gonna be alright

Just so we're straight and you don't get the wrong  
impression  
Don't need a silly little overdue confession  
Just remember when you're over at his house  
undressing  
He's just another sucker who's about to learn a lesson
