Well don't start up again you've already said it
and once was good enough
and i hope everyday you wake up and regret it
to think i wasted so much time on you cause i had
nothing else to do
and that was so wrong
yeah that was so wrong
you got caught with your shirt off it's time to admit it
i guess i should've known
that the shoe was the right size and your foot would fit
it
who knew that it would be so hard to take in
it was such a big mistake
why don't you turn around and walk right out of here
cause if you
you make it harder
well you're making it harder on yourself
and why should i bother
if you're only concerned about yourself
oh well who knew that it would be so hard to take in
it was such a big mistake
why don't you turn around and walk right out of here
cause if you
you make it harder
well you're making it harder on yourself
and why should i bother
if you're only concerned about yourself
but you make it harder
and you're making it harder on yourself
so why should i bother
if you're so concerned
