(N. Finn/T. Finn)
Niwhai she's so fly
Making it happen
Niwhai be my witness
Five satellites in just one night
Niwhai pacific sister
Her father's son
She was something precious
And we all love what she's become
Strange attractor
Something wicked
Paint her golden buddha
You're a blinding flash across the sky
Niwhai sequinned slipper
Fly by radiating light
Grant her secret wishes
Five satellites in just one night
Niwhai she's so fly
Making it happen
Grant her secret wishes
Five satellites in just one night
