Lead the swarm through the mist on a string
When one falls down, we all fall down

I've got a thousand lies
A thousand reasons why I can't believe in this
(You won't convince me)
But your two faced lives, they won't be missed
And I'm tired of living in fear

As you knock, knock on the door
As we pretend nobody's home
(We left the light on)
And our minds off
And with the tick tock goes the time
And rearrange the thinks I thought were mine
(You turn the light on)
The dimmest light on

I hope you fall when you reach the edge
(EITHER WAY YOU STOP BREATHING AIR)
Or jump if you dare
And look what you've left of me
Absolutely nothing, nothing

Let's play chess in the dark
So you can't see everything that you can really be
Is a board full of pawns with two hands behind you
Just to cover your eyes if someone opens the blinds

This sky is wide enough to swallow me whole
I'm leaving this behind tonight
I don't think you would understand
Can you hear the symbols crash just to deafen your ears?
So when they sneak behind you, the kiss of death you will never hear

Can I jump, jump over the edge
Without giving you a pledge
Turn your brights off
When the lights off
You joke broke the thorns

On a crown of scorn
I'll turn my light on
My own fucking light on

I hope you fall when you reach the edge
(EITHER WAY YOU STOP BREATHING AIR)
Or jump if you dare
And look what you've left of me
Absolutely nothing, nothing X2

I'll save myself
