Can't stop dancing can't stop dancing can't stop
dancing gravity is holding me down I can't stop giving
up and giving in I can't get up or get any higher I
can't stop shaking I can't stop moving this air is thick
it's making me sick I can't stop running around I
can't stop moving around I can't stop running
around in circles I can't stop running around I can't
stop getting down I can't stop running around in
circles it's running me down I can't stop running
around I can't stop moving around I can't stop
moving around in circles I can't stop dancing can't
stop dancing can't stop dancing gravity is holding me
down I can't get up and I can't get down can't get
right into the sound gravity is holding me down giving
up and giving in I can't get up or get any higher I
can't stop stop shaking I can't stop moving this air is
thick it's making me sick I can't stop running around
I can't stop moving around I can't stop running
around in circles I can't stop running around I can't
stop moving around I can't stop running around in
circles it's running me down...
