We're the Multi-Death Corporation
Opportune on any situation
Our only concern: capitalization
And world economic: domination
Profits are made from global starvation
Russian roulette for the world population
We need terror and repression
For third world exploitation
Generals plot extermination
Bank on death and devastation
Sick control, manipulation
From the Multi-Death Corporation

Promises of free expression
CIA assassination
State Department: no explanation
Bought and sold legislation
TV "news" half information
America prays in isolation
Sick control and manipulation
From the Multi-Death Corporation
