We don't need your Jah's fascist doctrine
We don't need to be so uptight
Hide your eyes from the truth
Not to be free but to be right

New World Order of old world lies
Jesus dons a new disguise
When people gave you homes and love
You gave back hate from high above

Couldn't help us fight the fight
Get together black and white
Returned all support with abuse
And intolerance beyond excuse

Black hardcore, hot and mad
Such good lyrics, it's so sad
Could have taken up a stand
Been the most important band

Looking out for number one holiest of guests
Smoking crucial herb while ignoring all their debts
They have shown for all to see, being musically
blessed
Makes you no better than anyone else
Frail and human like all the rest

Oh well, we tell you what it cost
We'll never know what was lost

Your selfishness has been a burn
A lesson bitter we had to learn

We don't need no Jah jive security
We don't need to be so uptight
See you hide your eyes from the truth
Not to be free, but to be right
