Nobody's above the law  
Someone sees and someone talks  
Living all our desperate lives  
What you do to make it right

If I heard you once  
I made you cry  
If I let you down  
It's an eye for an eye  
Don't say don't

Wants somebody  
Wants this all  
Love somebody  
You will let them know  
Wants somebody  
Wants this all  
Love somebody  
You will let them know

All the times that I have gone  
Damaged things I love the most  
Things that [?] don't want to hear  
In your mind I know your fears

If I heard you once  
I made you cry  
If I let you down  
It's an eye for an eye  
Don't say don't

Wants somebody  
Wants this all  
Love somebody  
You will let them know  
Wants somebody  
Wants this all  
Love somebody  
You will let them know
