"If You Really Love Me"

Visit "[If You Really Love Me](#)" on MotoLyrics.com

Baby baby, this might seem kinda crazy
But lately you don't get my heart racing, you used to
get my blood pumping
But in my mind there is something, no it's nothing you
said
But the only cure is inside your head

I know you're in there
I know you're in there

If you really love me, let me eat your brains
If you really love me, let me cause you pain

Closer than ever together we'll eat each other's brains
Dining forever our love will never be the same
Small price to pay to escape romantic atrophy
One big bite and you'll be just like me

I know you're in there
I know you're in there

If you really love me, let me eat your brains
If you really love me, let me cause you pain

I know you're in there
I can smell your brains
I know you're in there
I can smell your brains

If you really love me, let me eat your brains
If you really love me, you'd wanna be the same, baby
If you really love me, let me eat your brains
If you really love me cause you pain
