

The Five O'clock Heroes

"One Look Up"

Visit "[One Look Up](#)" on MotoLyrics.com

I've got a rover's eye
All the more to see with
It's an overview with space in mind
I can watch myself and bring my faults in line
With one look up oh yes I'm trying
The spirit's up I'm almost there
With mental wings I'm nearly flying
One look up I can see down
If you want to breathe fresh air
All you have to do is stand well clear
The things we need aren't always here
So if you feel the need to travel fly over the wall
With one look up oh yes I'm trying
The spirit's up I'm almost there
With mental wings I'm needy flying
One look up I can see down
If you really want to hope accept despair
We can all find the way to make love in the air
This overview may help our extinct
We can kick off the flesh there'll be more to share
With one look up...
