Turn your eyes to the page  
Read about the living age  
Polish up your crystal ball  
Check the night before it falls  
Let it go  
Please beware of nature's witch  
Picks her berries from your ditch  
And you'll be gone  
Turn you into orobas  
Turn you in, not one of us  
And you'll have words to say about that  
Let it go  
(shredded evidence)  
\*Not so much as a word  
Not so much as a clue  
Not so much as a trace  
Disappear into the blue  
Hell appears your living end  
Where you're left you will suspend  
And you just dangle  
They boil the fat, we chew the weed  
They make the facts, we can't succeed  
Without a little trick up your sleeve  
Let it go  
\*Not so much...  
Turn your eyes to this bed/let it go  
Turn your eyes for me she said/let it go  
Clear your mind of other thoughts/let it go  
Take my hand you astronaut/let it go  
\*Not so much...
