"Stand Or Fall"

Crying parents tell their children
If you survive don't do as we did
A son exclaims there'll be nothing to do to
Her daughter says she'll be dead with you
While foreign affairs are screwing us rotten
Line morale has hit rock bottom
Dying embers stand forgotten
Talks of peace were being trodden

Stand or fall state your peace tonight
Stand or fall state your peace tonight

Is this the value of our existence
Should we proclaim with such persistence
Our destiny relies on conscience
Red or blue what's the difference

Stand or fall state your peace tonight
Stand or fall state your peace tonight

An empty face reflects extinction
Ugly scars divide the nation
Desecrate the population
There will be no exaltation

Its the euro theatre
Its the euro theatre
Its the euro theatre

Stand or fall state your peace tonight
Stand or fall state your peace tonight

Its the euro theatre
Its the euro theatre
Its the euro theatre
Its the euro theatre
