"Still Around"

I love the breeze
The one I miss is in the breeze
You are the breeze
I love the water
The one I miss is in the water
You are the water
I love the life
The one I miss is in the life
You are my life
Now I am possessed
The one I miss is my possession
Maybe you're still around
Maybe you could still be found
I love the life
The one I miss is in the life
You are the life
I'm in distress
The one I want is my distraction
CHORUS:
Maybe you're still around
Maybe you could still be found
What can I do or say
To see there's no holding back?
Seeing this old place reminds me, maybe you're still
around.
I love the child
The child I kiss is in the man
You are the child
I am possessed
What I want is my possession
CHORUS
