When a dream survives the longest night  
And the vision takes a hold  
When a breath inspires it's a sign of life  
You're the string and I'm the bow  
Jump in the flow  
Just get carried by the flow  
Where the bank defines the water's edge  
The river in my spine  
As we circulate maybe we shall collide  
You're the space and I am the time  
Jump in the flow  
We get carried by the flow  
Through a sleep I ride  
Feel like a night that shines  
With a memory of long ago  
We drank to them  
Said goodbye as friends  
We survive, we survive it so  
Back in the flow  
Carried by the flow  
Just look how far you've been  
Look how far you've come  
All the things you've achieved  
Don't try and find any reason get carried by it  
Jump in the flow
