Headlights running down the avenue
Forget your changing, oh and how it gets to you
Keep the peace, hold on to your sanity
You take a chance in dealing with your enemy
Say where you're from
Who you are, what you do
Don't talk too much or we'll only throw it back at you
What she asks, working with your memory
I see your face and you're taking no notice of me

I've been out on my back
I've been feeling the strain
Nobody's watching at all
I've been living my life staying out of the way
Nobody's watching at all
I think you get in my head so wait

I get down when I got time on my hands
When I got on my hands
And I got time on my hands for you to make your plans
Put it all together and I'm signing with my pen

I'm underground finding it so hard to breathe
When I get out now, everybody's moving at speed
Move into town, wanted just to make a change
You're in it now and nothing's gonna be the same
Say where you're from, who you are and what you do
Don't talk too much
Or we'll only throw it back at you
What she asks, working with your memory
I see your face and you're taking no notice of me

I've been out on my back
I've been feeling the strain
Nobody's watching at all
I've been living my life staying out of the way
Nobody's watching at all
I think you get in my head so wait

I get down when I got time on my hands
When I got on my hands
And I got time on my hands for you to make your plans

Put it all together and I'm signing with my pen

I get down when I got time on my hands

When I got on my hands

And I got time on my hands for you to make your plans

Put it all together and I'm signing with my pen
