Hello love nice to see you again  
I hope someday we can still be friends  
I know this line won't help you feel better  
But a love you don't see just can't last forever

You've waited too long (you waited too long)  
I knew I was wrong (you waited too long)

The day we parted I was so broken hearted  
All I could do was think of you and how our love started  
You said someday you would return  
And that's why my heart continued to burn

But you've waited too long (you waited too long)  
I couldn't go on (you waited too long)

Now that I found myself another girl (tell me all about  
it)  
And she loves me with all of her heart (let me hear you  
shout it)  
To me she's all I need (all I need) to make a brand new  
start

For you've waited too long  
I couldn't go on  
Waited too long
