You try to change me  
You make me sit and waste my time  
Please don't blame me  
When I decide to commit this crime

You kept me locked up  
You made my life so rough  
And I can't help but think  
That soon you will have had enough

Soon you will have had enough  
Soon you will have had enough  
Soon you will have had enough  
Enough, enough

By force (by force)! By force (by force)!  
We'll take control by force  
We'll rip the power from your hands [x4]  
By force!

[Screaming]

[Repeat chorus x7]
