Harvest the petroleum harvest the petroleum  
Refine refine refine, kill everything  
Refine refine refine, kill everything

Our system, our civilization,  
Supreme system, man's best creation,  
No society is as right as ours,  
Level it all, level it all  
Level it all, level it all  
Their corpses, line the street,  
We made their cities fall.  
Level it all, level it all  
Level it all as cities fall.

Then we bring in our bulldozer,  
Push the bones and charred flesh into land fill.  
We can start a new civilization,  
Our own people our own culture

HOMOGENIZE THE EARTH  
SO NO MATTER WHERE YOU GO  
YOU'RE IN AMERICA!

That is only step one, fuck diversity.  
Think of all the money that can be made for the  
children.  
Store all the freedom for the future generations.  
Fuck the earth, fuck nature fuck everyone who's not  
American.

Join us freedom is calling.  
Pray for our blessed president.  
We don't need any evidence.  
Join us Gods on our side.
