Tonight, you have lost all your friends
Lives to defend, make our amends
Tonight, we will get our revenge, revenge

BOMB THE WHITE HOUSE

There's more of us than you
We'll make an army out of the few
Cause if you've got one then we've got two
Of us who won't back down
We'll take this fight to another round
This cause was lost but it can be found

BOMB THE WHITE HOUSE

You have never seen an army like this
We are not afraid to use broken fists
You have never seen an army like this
We laugh at you and your weakness
