You're adorable, sweet as be  
You're adorable, a dream boy to me  
You're all that I hope my love would ever be

You're so lovable, here in my arms  
You're so kissable, when I hold your charms  
You're mine, you are so divine  
My adorable one

You must have come from heaven  
Because you thrill me so  
Heaven starts at seven sharp  
You start my heart to glow, glow, glow

You're so lovable, so warm, so nice  
You're excitable, when kissed once or twice  
And soon you'll be mine alone  
You adorable one  
(Repeat)
