"Adorable"

You're adorable, sweet as be
You're adorable, a dream boy to me
You're all that I hope my love would ever be

You're so lovable, here in my arms
You're so kissable, when I hold your charms
You're mine, you are so divine
My adorable one

You must have come from heaven
Because you thrill me so
Heaven starts at seven sharp
You start my heart to glow, glow, glow

You're so lovable, so warm, so nice
You're excitable, when kissed once or twice
And soon you'll be mine alone
You adorable one
