"Rock And Roll Rhapsody"

They played rock and roll
You danced with me
And changed the music
To a rhapsody
I heard violins where none should be

We danced every dance
The hours flew
And as we stood there
When the band was through
I still heard that rhapsody with you

You kissed me there
And held me oh-so tight
We kissed again
You vanished in the night
My darlin' why, why did you say goodbye

Oh oh, oh oh I want you so

If all of my dreams were not to be
Then why does each song
Bring you back to me
In that rock and rollin' rhapsody

In that rock and rollin' rhapsody
In that rock and rollin' rhapsody
