"My Love Was There All The Time"

Visit "[My Love Was There All The Time](#)" on MotoLyrics.com

You had me going
You knew what you were doing
I never would have thought it was a lie
Who am I kidding
Pretending you have feelings
There's nothing left to do but say goodbye
I don't suppose you care
I'm feeling this way
I'm through being a fool for another day
CHORUS:
You don't listen when I say I love you
You turn away when I try to show you
You don't see that I exist
When the one that you're with deserts you
Breaks your heart and really hurts you
You will find
That my love was there all the time
I thought I knew you
That I was something to you
But now the only thing I feel is pain
I think I'm crazy
For still hoping someday maybe
I'm lost in love with only you to blame
I don't suppose you care
I'm feeling this way
I'm through being a fool for another day
CHORUS
I give up
Can't go on trying to win this useless fight
To make you love me
It's just not worth the price
CHORUS
