

The Four Esquires **"Hideaway"**

Visit "[Hideaway](#)" on MotoLyrics.com

Wish I knew a hideaway
I could take you to
I would pass the night away
Making love to you

In our little hideaway
We could be alone
There we'll find the happiness
We can call our own

Far away from everywhere
We'll share our love forever
We won't miss the world at all
We'll have our own world together

Til we find our hideaway
Til our hearts are free
Come to my arms right away
And hideaway with me

Til we find our hideaway
Til our hearts are free
Come to my arms right away
And hideaway there with me
Hideaway there with me
