Here's a story that will pull at your strings
Listen to every word that I sing
A girl, a boy, and a broken heart
And how they felt right from the start

My heart's been broken many times before
Every time I've been shown that door
And I don't want to feel like this anymore
So just promise me...

Send a response with your lovely locks
Drop it in your little letter box
All I want is an answer true
Saying that I love you

Oh, I don't want to be alone
Gotta say that it makes my day
Just to hear your sweet voice on the phone

Gotta have you by my side
Even if I can't find a ride
The happiness that you provide
When I see your face
(Whoa) Just to see your face...again

Gotta have you here with me
The only face that I want to see
You really are my MVP
And I ain't kidding
(Whoa) Just to see your face...again

Oh, I don't want to be alone
I don't want to miss you anymore
